

# What is LiveOnline?

With LiveOnline Instruction you'll get a front-row seat to your course from the comfort of your home. All you need is a chair, a computer or tablet, and an internet connection to join classes taught by one of our certified instructors. When you launch our powerful online classroom, you'll engage with other students and your instructor using chat, audio, and an interactive whiteboard.

## Get an Edge

Our top-notch teachers know the exams inside and out and will give you the edge you need to reach your goals. You'll master our exclusive test-taking strategies and get access to over 150 videos, thousands of practice questions, and realistic practice exams in your student portal.

## Interactive Classroom

Test prep online where and when it's convenient. As long as you have internet access, you can follow along with the lesson and interact with your teacher and classmates in real-time.

## Our Technology

Students have loved LiveOnline for years. Our proprietary LiveOnline classroom was built just for us, so we aren't reliant on third-party resources to bring the classroom to you.

## Schedule Options for Everyone

Early morning, late night, specific days of the week—LiveOnline has you covered. Course schedules also include suggested dates to complete full-length practice tests, so students can benchmark their progress.

## Recorded Lessons

Every LiveOnline lesson is recorded so you can re-watch and review tough concepts anytime you want.

## Tools for Parents

Have them join you in class or check out what you're learning with our online dashboard.

## Guaranteed Results

Our prep makes a difference. We're so confident that we can help you get a better score that we offer a money back guarantee\* on all of our LiveOnline courses.

## Winner, EdTech Digest Award for Testing Prep Solution

“Sophisticated test-prep technology for a simple experience that meets students where they are and brings them to where they need to go. Several modes, resources, expert-led videos, interactive reports—adds up to smart help.”
