Jordan F. Cox
Executive Director of Instructional Services

September 2021

Dear Parents and Guardians of Students in Kindergarten and Grades Two, Four, Seven, and Ten:

New York State Education Law requires that schools report the Body Mass Index of students. The Body Mass Index or BMI are part of the required school health physical.

The Commack Public School District has been selected to send our students' data to the New York State Department of Health. We will provide only summary information. The survey does not include names of individual students. The New York State Department of Health *does* allow parents the option of excluding their child's data from this survey report.

If you do not wish to have your child's weight status information included as part of the New York State Health Department's **2021-2022** survey, please complete the form below and return it to your school nurse.

If you have any questions, please contact your school nurse.

Sincerely,

Jordan F. Cox
