GPA and Core-Course Requirements Remain in Place

During the 2023 NCAA Convention, **Divisions I** and **II** adopted legislation to remove standardized test scores from initial-eligibility requirements for student-athletes who initially enroll full time on or after August 1, 2023. The vote was based on the recommendation from the **Standardized Test Score Task Force**, a specialized group charged with reviewing initial-eligibility requirements as part of the NCAA's eight-point **plan to advance racial equality**.

Among other requirements, college-bound student-athletes planning to compete at an NCAA Division I or II school are still required to have a 2.3 (DI)/2.2 (DII) grade point average in 16 NCAA-approved core-course units and provide proof of high school graduation. Division-specific information on initial-eligibility requirements is available here:

- **Division I.**
- **Division II.**
- **Division III:** [Click here](#) for more information on Division III requirements for international student-athletes.

Student-athletes planning to attend a Division III school are not required to have an academic certification from the Eligibility Center but may be required to have an amateurism certification.

Eligibility Center resources and websites will be updated in the coming weeks to remove the test-score requirement. Also, academic committees in Divisions I and II will assess the potential impact of this change on the initial-eligibility waiver
