

April 7, 2019

Dear students and families of Rolling Hills and Wood Park Schools,

The Lion Den (kindergarten age) from Cub Scout Pack 125, is proud to be working on their first group community service project! For the month of April, the Lions will be collecting dried out plastic markers (of any brand) to send to Crayola for recycling. With Earth Day coming up the boys are learning about ways they can help conserve energy in their homes and are developing a sense of community awareness and responsibility.

The collection boxes will be located in the lobby of Rolling Hills and Wood Park schools.

Thank you for helping our Lions make their first community service project a success!!
