

ACT & SAT Self-Paced Online Program

Commack provides all students with access to a high-quality SAT and ACT preparation platform from Method Learning called Methodize. Students who use Methodize can increase their SAT scores an average of 150 points and their ACT scores an average of 3 points. Methodize breaks all of the tricks, strategies, and techniques into 15-minute exercises that include audio lessons and video explanations. Even if you are going to seek additional SAT/ACT prep options/tutoring, Methodize is a tool that every student can use to score high on the SAT and ACT.

The beauty of the self-paced program is that you can build the work around your schedule. There is a total of 25 hours of preparation (each for ACT and SAT) that can be spread out over 2 days, 2 months, 6 months or even a year. Take your PSAT in the fall, your ACT & SAT in the spring and you still have time to prep for a second ACT & SAT in the following fall if you choose to take it again.
