

3. What were the purposes of the Coliseum and the Circus Maximus? (3 points)

To entertain, usually to provide a venue for the "Roman Games" sponsored by the rich, powerful Romans & to honor Gods.

4. What architectural and building techniques and technology are present? How else did the Romans use these techniques and/or technology? (3 points)

- Arches - could support a lot of weight
- Used concrete (created using a unique mixture) - very durable + strong
- arches enabled people to build larger and more varied buildings.
