

Mouse Trap

Rules:

1. Set up the laundry basket and the water bottle three **giant** steps from your marker
2. In 60 seconds see how many times you can knock the mouse (water bottle) into the trap
3. The ball must hit the mouse (water bottle) **first** for it to count
4. Each successful attempt counts as one point!
5. Write your score at the end of each round!

Modifications:

1. If you do not have a laundry basket, you can use a shoebox
2. Move the marker further away or closer to the target to change the difficulty
3. To make it more challenging, use a smaller ball!

Have fun and enjoy the game!
