

Score Choice™: New SAT® Score-Reporting Policy

Designed to reduce student stress and improve the test-day experience, the College Board has approved Score Choice™, an important change to the current SAT® score-reporting policy. This new policy gives students the option to send SAT scores by test date in accordance with a particular college's score-use practice. Score Choice is optional, and if students choose not to use it, all scores are sent automatically.

Each college, university and scholarship program has different score-use practices. The College Board has designed an easy-to-use process that provides students with score-use practices for each participating institution. *Students are responsible for following an institution's practice, and colleges and universities will only receive the scores that students send them.*

FAST FACTS

Availability

- Score Choice is available to all students via the Web or by calling Customer Service toll free.
- Scores from an entire SAT test (critical reading, writing and mathematics sections) can be sent; scores of individual sections from different sittings cannot be selected independently for sending.

No Additional Cost

- Students can send any or all scores to a college on a single report — it does not cost more to send one, multiple or all test scores.
- Students receive four free score reports with their test registration fee. We continue to recommend that students take full advantage of the four score reports included with their registration.

More Information

- Score Choice does not affect score reports sent to students or to their high schools — both will continue to receive all scores.
- Score Choice is an optional feature. Students should still feel comfortable sending all scores, since most colleges consider a student's best score.
- We recommend that students send all of their scores if they are unsure of which scores to send.
- The College Board will provide e-mail reminders to students who have not yet sent their SAT scores.
